

Emissco™

Experts in Aerosols and Liquid Filling

About Emissco

Emissco is a leading manufacturer of aerosols and liquids. All of our products are formulated in-house by expert chemists, ensuring excellent quality. We provide solutions for industrial, rail, automotive and transport applications – all of which can be easily rebranded and formulated to meet customer requirements, including bespoke formulations.

We operate a dedicated liquid manufacturing facility with multiple production lines in Cheadle, near Stoke.

Our large production capacity allows us to offer contract manufacturing services for the commercial market, matched with extensive warehousing and a dedicated logistics framework, we offer everything needed for our customers to launch and distribute new products competitively.

- Established product range
- Research + Development
- Contract manufacturing
- Bulk filling capabilities
- Warehousing
- Logistics

As a UK manufacturer with extensive experience managing and distributing a large range of aerosol and engineered liquid products, everyone at Emissco makes quality and safety compliance a priority.

Our formulations use the best quality components and our range of propellant options include the latest technology to ensure both product performance and environmental awareness.

Quality + Standards

Customer Journey

At Emissco we take you on a journey. From the very beginning our team listens to your every need and creates a tailored solution that meets your requirements. We can handle every stage of product formulation, design, manufacture, packaging and distribution, ensuring smooth delivery and a simple experience for you.

Product Development

At Emissco we are at the forefront of innovation, providing businesses with a cost effective method to deliver aerosol and liquid products to market quickly. Our extensive product testing means we are equipped to offer a service to match any requirement. We can develop new products with bespoke formulations as well as improve existing formulas from both the customer and our existing range.

Manufacture & Production

We offer a contract manufacturing service that reduces costs whilst also providing high-volume capabilities. This means that our customers can deliver products to market faster, helping to improve profitability. Our facility is capable of flexible production to support both large and small batches.

Artwork & Design

Alongside developing aerosols and liquids products, our in-house design team can help take care of packaging. We work with our customers to produce eye-catching branding to ensure products stand out, displaying a distinct brand identity and giving them an edge in a competitive market. In addition to this, our experts are also able to assist with product compliance, ensuring all requirements are met.

Packaging & Distribution

Our fully equipped facilities mean that we can package any amount of aerosol and liquid products ready to go to our customers. We offer a wide selection of aerosol cans, bottles, vessels and IBCs in addition we can also offer bespoke packaging solutions. Furthermore, our dedicated, in-house logistics fleet ensures that products are delivered on time, every time.

Our Range

AIR-CON SANITISER 150ML

Sanitises and cleans the entire vehicle cab including the air con unit, fascia, air vents and fans.

- Kills harmful bacteria fungi and mould
- Eliminates unpleasant odours
- Restores a clean and fresh smell

SPA1010

AIR FRESHENER 500ML

Air Freshener is a concentrated dry deodorising air freshener designed to dispel unwelcome odours from the atmosphere, leaving a pleasant fragrance, suitable for household, commercial, automotive & industrial use.

Citrus, Wild Berries, New Car, Cotton Fresh, Bubblegum, Vanilla

- Helps prevent and eliminate stale odours from forming

SPA1012 500ml
SPA1039 600ml

DASHBOARD SHINE 500ML

Clean and restore your dashboard and leathers with dashboard and leather cleaner, safe to use through out the vehicle on all leather and plastics surfaces, removes dirt leaving a gloss finish and a lovely smell suitable for steering wheels, leather upholstery, bumpers and plastics.

Citrus, Wild Berries, New Car, Cotton Fresh, Bubblegum, Vanilla

SPA1037

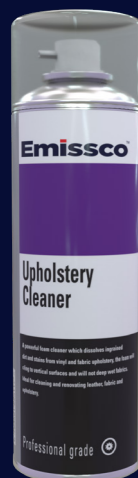

BUG & TAR REMOVER 500ML

Formulated to remove tar spots and bugs from both paintwork, windscreens, headlights and side windows. Easily rids your car of stubborn bug stains without needing to scrub and scrape and leaving it sparkling clean and smear free.

- Non-dripping foam formula
- Quickly penetrates
- Usable on a wide range of surfaces

SPA1036

UPHOLSTERY CLEANER 500ML

A powerful foam cleaner which dissolves ingrained dirt and stains from vinyl and fabric upholstery, the foam will cling to vertical surfaces and will not deep wet fabrics. Ideal for cleaning and renovating leather, fabric and upholstery.

- Rapidly cleans upholstery, fabrics, carpets and trim
- Pleasant fragrance

SPA1013

FABRIC PROTECTOR 500ML

Ideal for carpets, upholstery & fabric seats. Prevents against oil and water-based spills and stains, reduces the dry soiling of fabrics.

- Protects
- Use in office and home
- Car interior
- Evaporates fully in seconds

SPA1032

TYRE DRESSING 500ML

Quick and easy way to produce a showroom tyre gloss. Its foaming action floats off dirt and grime leaving a lustrous black sheen. No need to wipe or rinse, simply spray on and leave. The high-speed application quickly covers the surface leaving a long-lasting finish that will help to protect tyre walls against cracking and fading.

- No need for buffing
- Will not harm wheels or trims
- Leaves a long-lasting finish

SPA1017

ELECTRICAL CLEANER 500ML

Electrical Cleaner a is selective solvent contact cleaner of high purity especially suited for the cleaning and degreasing of all types of electrical equipment including electric motors, generators, starters, control panels, switches, relays, contacts, computers, telephones, precision tools and radio equipment.

- Designed not to attack metals, paint, rubber, lacquers or plastics
- Easily removes dirt and grease
- Leaves no residue

SPA1029

GLASS CLEANER 500ML

A highly concentrated non-streak formulation for the quick and efficient cleaning of windows, windscreens, mirrors, display cabinets, face shields, machinery guards, ceramic and plastic surfaces.

- Usable in the home or office on glass, mirrors, tiles, plastics, ceramics, vdu screens and face shields
- Also usable in cars, lorries, caravans and boats to remove dirt, grease, insects, and road film from windscreens, mirrors and head lights

SPA1014

MULTI-PURPOSE CLEANER 500ML

Multi-purpose foam cleaner. The stable, non-dripping foam formula ensures longer contact time and improved performance on vertical surfaces. Removes grease, oil, grime and other tough stains. Compatible with most plastics.

- Quickly penetrates
- Non-dripping foam formula
- All hard surfaces

SPA1035

CARB CLEANER 500ML

Powerful, carbon dissolving formula. Cleans away deposits from carburettors and intakes. Restores power, increases fuel economy and improves engine efficiency. Safe for use in conjunction with oxygen sensors and catalytic convertors.

- Dissolves all conventional automotive oil and grease deposits
- Rapidly softens & removes fuel deposits
- Helps remove dirt & deposits from carburettors, air intake manifolds, injection systems & linkages

SPA1034

ENGINE DEGREASER 500ML

A hard working solvent cleaner designed for the removal of dirt, oil and grease from your engine. It will evaporate fully leaving no residue.

- Removes oil from concrete and painted floors
- Emulsifies on contact with water for quick and easy cleaning
- Suitable for cleaning tools

SPA1028

Our Range continued...

WHITE GREASE 500ML

A scientifically prepared grease formulated to resist heat & water and also protect against corrosion. White Grease can be used on door and boot hinges, most linkages in the engine bay, 'O' rings, gears, bearings, springs, sliding shackles & striker plates. Lubricates all hard surfaces, such as plastic, steel & aluminium.

- Short term corrosion protection
- For use in the auto & industrial sectors
- Lubricates & protects all moving parts

SPA1009

CLEAR GREASE 500ML

Has high load capability and operates across a wide range of temperatures. Continued lubrication helps to reduce friction, repel moisture and extend component life. Colourless formulation is ideal for all applications & locations.

- Provides a water-resistant lubricant and protective film
- Easy in-situ greasing of bearings and other moving parts
- Recommended for automotive, industrial, rail and marine applications

SPA1023

SILICONE SPRAY 500ML

Designed to lubricate plastic, wood, rubber, nylon and metal. Silicone Spray creates a frictionless clean invisible coating on all sliding surfaces, it also is highly effective at protecting against rust and corrosion.

- Waterproofs and protects
- Prevents jamming and freezing of sliding doors and windows

SPA1015

EGR VALVE CLEANER PETROL AND DIESEL 500ML

Provides immediate thorough cleaning of the air intake system, airflow sensor, inlet valves and EGR system. Strong power jet spray to support cleaning action. Dissolves gum, lacquer, tar, carbon and varnish. Restores perfect airflow towards the combustion chamber. Provides a regular and stable idle. Eliminates and avoids starting problems. Improves acceleration properties. Is harmless to catalytic converters.

- Dissolves rust, dirt and (soot) deposits
- Optimizes the air supply to the engine

SPA1018

MAINTENANCE SPRAY 500ML / 600ML

Protects metal from rust and corrosion, penetrates stuck parts, displaces moisture and lubricates almost anything. It even removes grease, grime and more from most surfaces

- Releases seized parts
- Short term corrosion protection
- Cleans off tar and oil residue
- Helps remove stickers and labels

SPA1005 500ml
SPA1038 600ml

BRAKE CLEANER 500ML / 600ML

A blend of pure fast evaporating solvents. Provides speedy and effective removal of dirt, dust, grease and brake fluid. Formulated for use on vehicle clutches, brake drums, shoes, discs and callipers.

- Cleans without disassembly
- Stops brake squeal & clutch slip caused by contamination & glazing
- Frees seized brakes
- Prevents excessive dust build-up

SPA1018 500ml
SPA1026 600ml

Liquid Fill

A range of 5L/25L Automotive products, each product has been formulated to the highest quality, targeting specific needs.

MAINTENANCE FLUID 5L/25L

- Releases seized parts
- Short term corrosion protection
- Cleans off tar and oil residue
- Helps remove stickers and labels

SPB1026 5L
SPB1043 25L

BRAKE CLEANER 5L/25L

- Removes brake fluid, oil, tar, grease & other contaminants
- Cleans without disassembly
- Stops brake squeal & clutch slip caused by contamination
- Frees seized brakes
- Prevents excessive dust build-up

SPB1005 5L
SPB1044 20L (DRUM)
SPB1025 25L

TRAFFIC FILM REMOVER 5L/25L

- Ready-to-use formula
- Removes stubborn dirt, grease, and oil
- Can also be used to clean machinery
- Designed for high pressure washing
- Suitable for cleaning chassis and bodywork

SPB1033 5L
SPB1034 25L

DASHBOARD SHINE 5L/25L

- Ready-to-use formula
- Removes stubborn dirt & grime
- Enhances the appearance of dashboards
- Restores to a pristine look
- Light fragrance
Citrus, Wild Berries, New Car, Cotton Fresh, Bubblegum, Vanilla

SPB1031 5L
SPB1032 25L

GLASS CLEANER 5L/25L

- Ready-to-use formula
- Glass, Windscreens, mirrors & head lights
- Cars, lorries, caravans and boats
- Streak free, sparkling finish
- Effective against grease, tobacco film & other dirt

SPB1027 5L
SPB1028 25L

TYRES DRESSING 5L/25L

- Ready-to-use formula
- Dresses and preserves tyre walls
- Specifically formulated to rejuvenate tyres
- Removes scuff marks and restores fading
- Wet look shine

SPB1029 5L
SPB1030 25L

Experts In AdBlue®

AdBlue® works with the SCR system present on modern diesel vehicles. It is injected into the exhaust stream to convert nitrogen oxide (NOx) into harmless nitrogen and water vapour. This minimises the impact of diesel vehicles on air quality and the environment, while also providing adherence to emissions standards.

At Emissco we bottle and distribute millions of litres of AdBlue® each year. Available in 3.5lt pouches all the way up to 1000lt IBCs, we offer own branded packaging and distribute nationwide.

Features & Benefits

- ISO 22241 certified specification
- Robust PET material for external shaded storage
- Bottle design prevents spillage, reducing paintwork corrosion and/or contamination
- Quick and easy to refill with flexible pouringspout (5L, 10L, 20L) (included behind sleeve/label)
- Reduced pollution (Lowers NOx and Particulate emissions)
- Suitable for all vehicles with SCR Systems

CrystalGuard™

Premium AdBlue®

Prevents crystal deposits forming in SCR Systems

Like AdBlue®, CrystalGuard™ works with SCR systems to reduce NOx emissions from diesel engines, however CrystalGuard™ is specially formulated to reduce the harmful build-up of crystal deposits which can occur in vehicles and mobile machinery with low idling or regular stop/start operation.

Most modern vehicles have stop/start systems and their operation can be a challenge to the SCR system, especially in cold conditions. When the exhaust temperature is low, or there are cold spots in the exhaust system, an increased risk of deposit build up may occur in the SCR catalyst system, which can cause blockages. This may result in higher fuel consumption, extra maintenance schedules and unwanted downtime of the vehicle.

Based on a high-purity 32.5% urea solution CrystalGuard™ conforms to the purity specifications of the ISO 22241 standard for AdBlue®, with which it is fully compatible. With the added benefit of a surfactant additive CrystalGuard™ prolongs the life of the SCR system, helping to reduce vehicle / machinery down-time and avoiding unwanted additional maintenance costs.

Features & Benefits

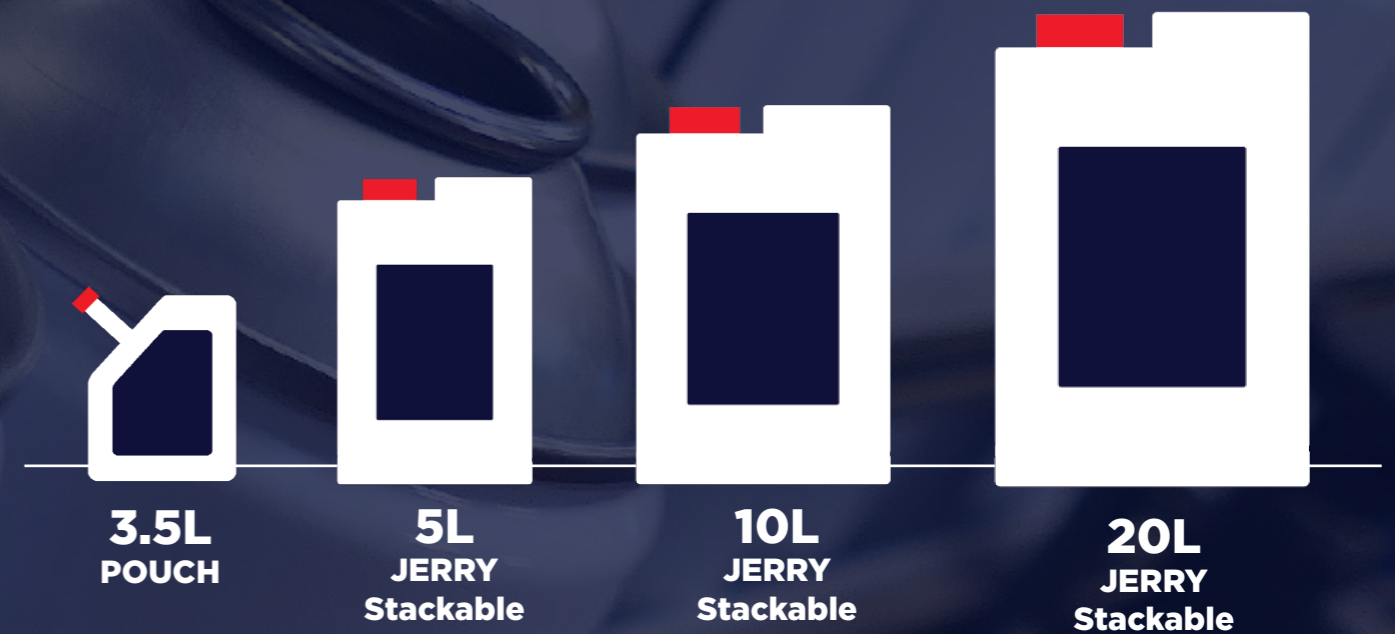

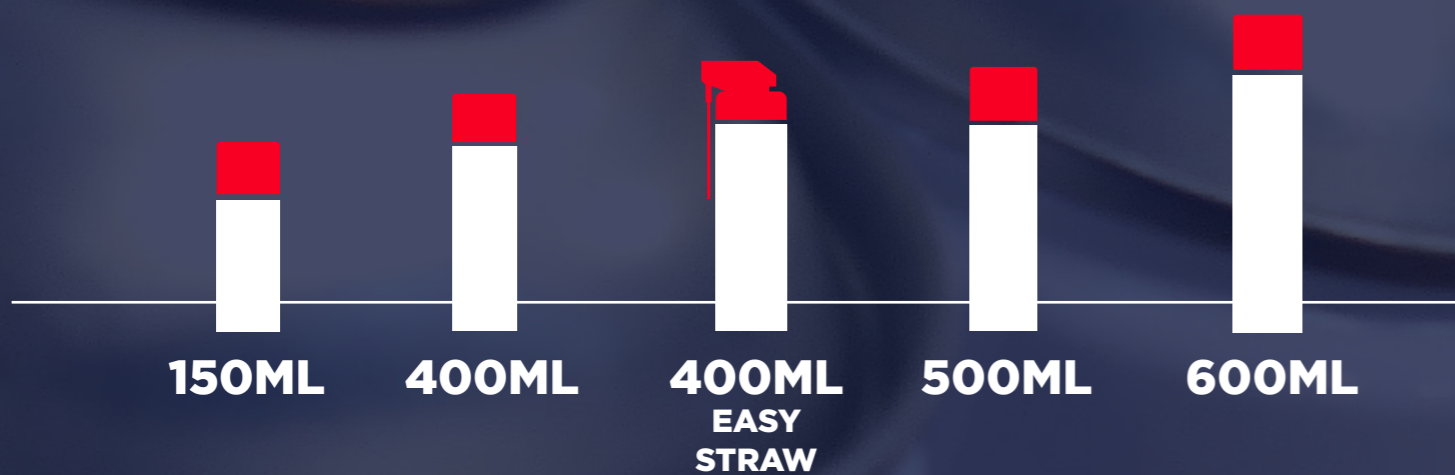

- Prevents crystal deposits forming in Selective Catalytic Reduction (SCR) systems
- Ideal for cold operating conditions (winter months)
- Reduced pollution (Lowers NOx and Particulate emissions)
- ISO 22241 certified specification (ISO 22241-1, ISO 22241-2, ISO 22241-3).
- Suitable for all vehicles with SCR Systems
